Existing Transportation Data

- One of our Systems Today:

- Traffic accidents: 40,000 records per day: 0.001 Gb/day
- Traffic detectors: 35,000,000 records per day: 5 Gb/day
- Probe vehicle data: 4,200,000,000 records per day: 550 Gb/day
- CCTV, weather, radio, etc: NO,STA,TSK,EPT records per day: ??? Tb/day
- V2X & Automation data: ?,???,???,???,??? records per day: ??? ?b/day

This data is:

- Redistributed in Real-Time to Coalition Member through
 - Websites
 - Data Feeds
- Permanently Archived
- Used for Analytics and Performance Measures
 - Growing Suite of tools

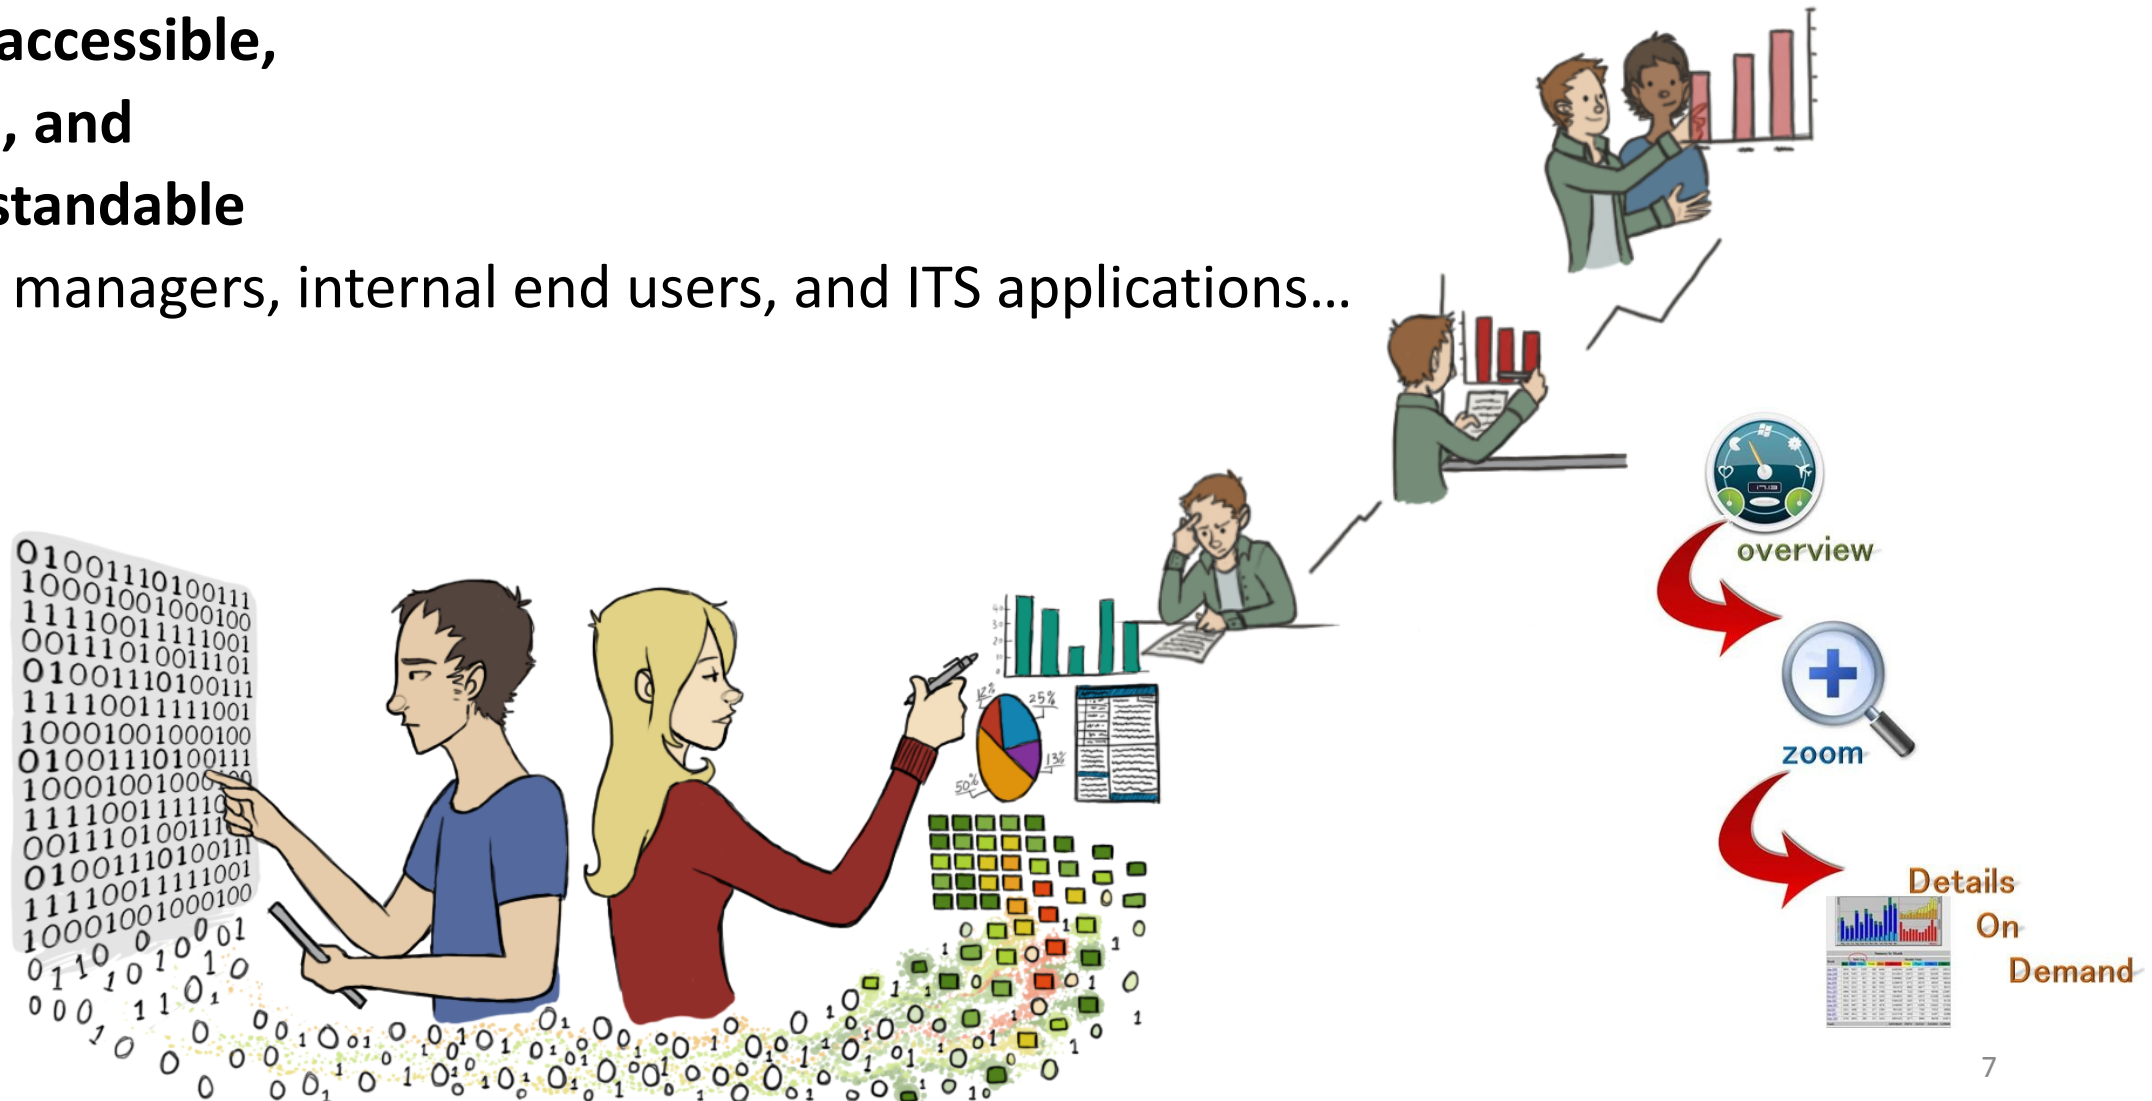

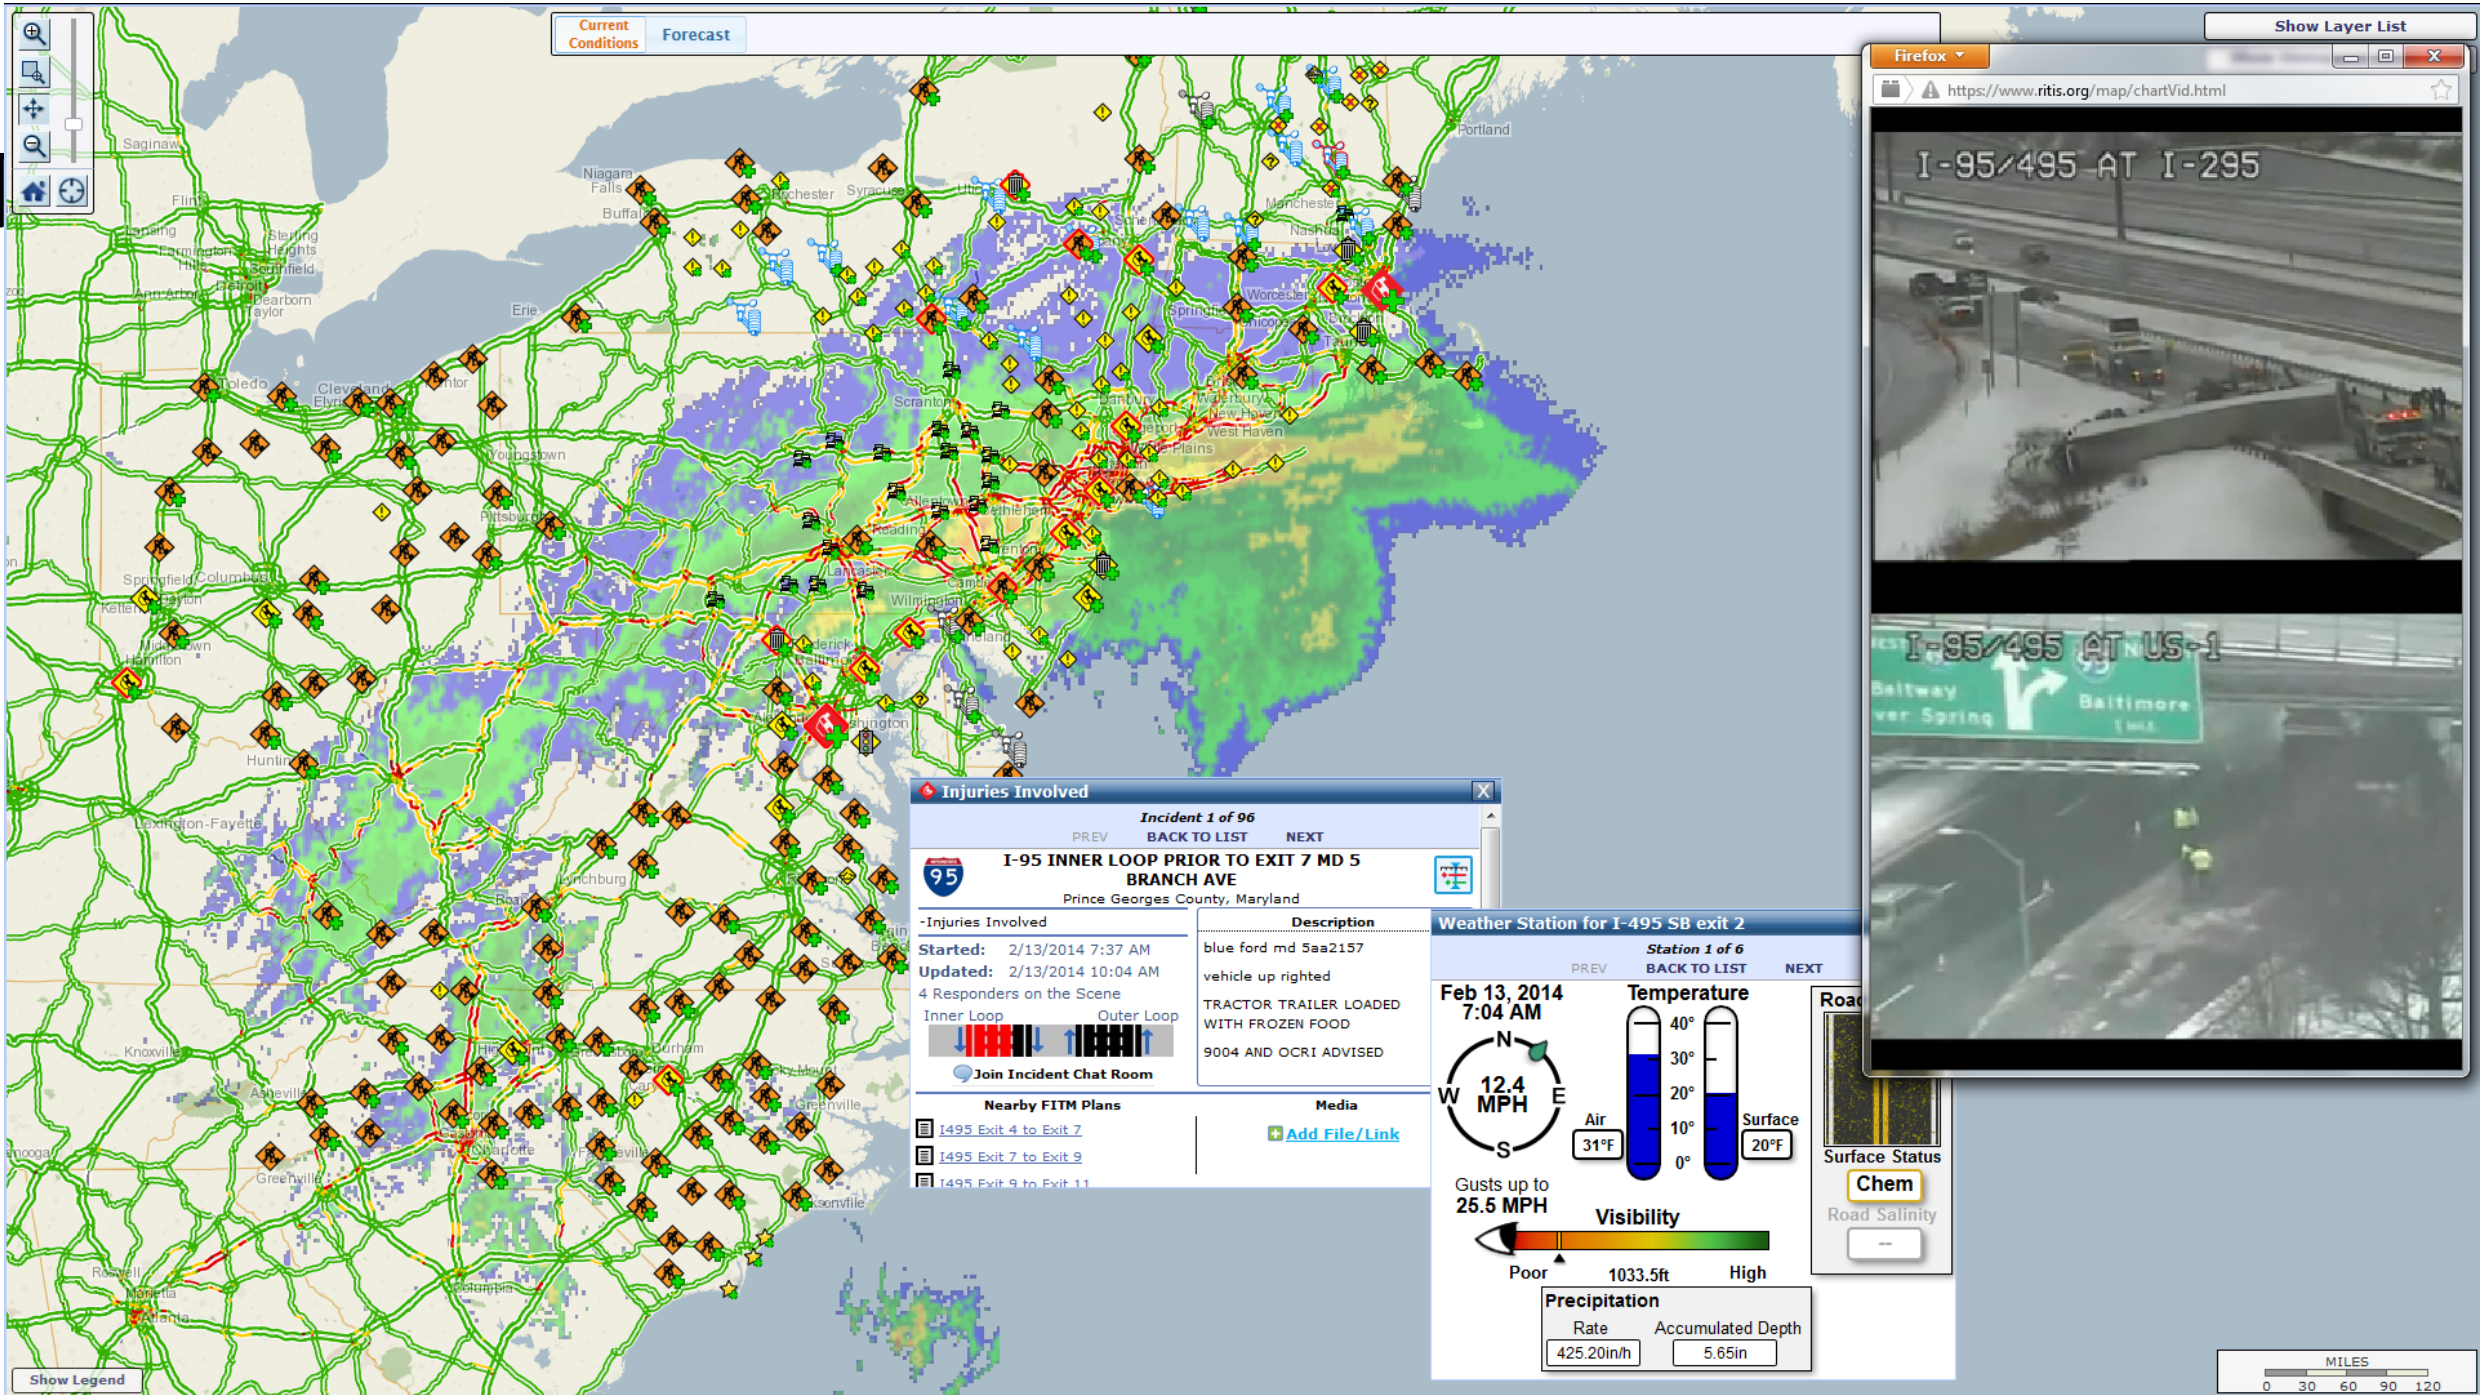

Our goal has been to...

- Provide tools to make agency data

- easily accessible,
- usable, and
- understandable

To these managers, internal end users, and ITS applications...

The screenshot shows the RITIS Traffic Map interface. The main map area displays the United States with a dense distribution of red and green pins, each representing a radio feed. The pins are concentrated in the eastern half of the country, particularly in the Northeast and around major cities. The interface includes a top navigation bar with links to 'Incident List', 'Traffic Map', 'Incident Overview', 'Traffic Cameras', and 'RSS Incident Feed'. A right sidebar contains a 'Show Layer List' and a 'Radio Feeds' section, which lists various radio feeds such as 'Marin County, CA', 'California Highway Patrol...', 'Santa Cruz County, CA', 'San Mateo County, CA', 'BART - Bay Area Rapid T...', 'Hillsborough Police Depa...', 'San Mateo County ARES...', 'N6NFI 145.230 Mhz Rep...', 'San Francisco Bay Area...', 'San Mateo County Law E...', 'WIN System Amateur R...', 'SFO Airport and Oakland...', 'District of Columbia Count...', 'Metropolitan Washington', 'Airports Authority (MWAA)', and 'Public Safety'. A bottom status bar displays 'University of Maryland CATT Lab (Contact Us) © 2008 - 2012' and '© 2013 Michael L. Pack, UMD CATT Laboratory'.

Significant Event Coordination

Significant Event Coordination Process in the NCR

- Something bad is happening or is on the way. (example—snowstorm)
- Someone **requests a conference call** to discuss.
- Official announcement goes out
- Call is held (usually at 3AM)
- Decision is made:
 - evac. shelter in place, early release, close gov., etc.
- Repeat every X-hours until resolved
 - MPO is facilitator
 - Transportation hates these calls because...

Collaborative Decision Making Tools for Significant Event Coordination

RITIS has built-in “webinar” functionality that can be used to coordinate multi-agency, multi-user response to significant events like:

- Hurricanes
- Winter Weather Events
- Terrorism
- Etc.

The system does not require any specialized software/browser add-ons, and allows the sharing of screens, documents, event timelines, and attendee polling.

Meeting minutes, logs, list of attendees, etc. can be printed out and shared with all meeting attendees at the conclusion of a meeting.

Users can annotate/draw over the screen.

Collaborative Decision Making Tools: Meeting in Progress

RITIS Meeting

Winter Sto... Checklist

09/17/2014 2:00 PM
Conference Call: (123) 456-7890
Code: 123456
Location: Maryland
Description: Maryland state wide winter storm preparedness call - Test

Forecast

8am - 12pm

A strong storm will be advancing through the area with potential wind gusts of 35mph.

12pm - 4pm

The storm will move to the east of Springfield by 3pm, and weaken as it approaches St. Louis.

4pm - 8pm

The storm will move out of the region completely by 8pm.

8pm - 12am

Significantly colder air will settle over the region causing rapid freezing on the roadways.

Running a Poll

The host of a meeting has the ability to run polls and get the input of the meeting participants. Poll results are displayed in the top right panel.

Poll Results →

The interface displays a weather map with a storm system moving through the region. A poll titled "School Closing" is active, asking "When should the schools be closed?". The poll results show 4 of 6 participants voted: 2 for 8am, 0 for 10am, 2 for 12pm, and 0 for "No closing needed".

MATOC Weather Call: January 26 Event

1/25/15 2:00 PM
Host: Taran Hutchinson
District of Columbia

This is the RITIS Meeting for MATOC Severe Weather Coordination Working Group to discuss the anticipated winter weather event forecasted to impact the region Sunday night into Monday (1/26) morning.

Recommendation:

Recommend MWCOG Snow Call for 3AM Monday (1/26)

We will have a follow up MATOC Weather Call at 2PM Monday (1/26) to discuss how the event is progressing and impacts to PM rush as well as impacts for Tuesday AM rush.

Number of Attending: 9

Forecast:

Current Advisory

NATIONAL WEATHER SERVICE BALTIMORE MD/WASHINGTON DC
1040 AM EST SUN JAN 25 2015

...WINTER WEATHER ADVISORY REMAINS IN EFFECT FROM 2 AM TO 6 PM EST MONDAY...

* PRECIPITATION TYPE...SNOW...POSSIBLY HEAVY AT TIMES.

* ACCUMULATIONS...1 TO 2 INCHES.

* TIMING...SNOW WILL BEGIN LATE TONIGHT AND CONTINUE THROUGH LATE MONDAY AFTERNOON. THE HEAVIEST SNOWFALL WILL OCCUR BETWEEN EARLY MONDAY MORNING AND MONDAY AFTERNOON.

* TEMPERATURES...IN THE LOWER 30S.

* WINDS...NORTHEAST 10 TO 15 MPH.

* IMPACTS...ROADS WILL BE SNOW COVERED AND SLIPPERY WITH VISIBILITIES BEING REDUCED TO NEAR ONE-QUARTER MILE AT TIMES. THE COMBINATION OF SNOW COVERED ROADS AND LOW VISIBILITY WILL MAKE TRAVELING DANGEROUS.

* OUTLOOK...SNOW WILL CONTINUE MONDAY NIGHT INTO TUESDAY...WITH ADDITIONAL ACCUMULATION POSSIBLE.

PRECAUTIONARY/PREPAREDNESS ACTIONS...

A WINTER WEATHER ADVISORY FOR SNOW MEANS THAT PERIODS OF SNOW WILL CAUSE PRIMARILY TRAVEL DIFFICULTIES. BE PREPARED FOR SNOW COVERED ROADS AND LIMITED VISIBILITIES...AND USE CAUTION WHILE DRIVING.

Polls:

Poll #1	2:08 PM
When do you recommend a MWCOG Snow Call?	
Sunday afternoon (late)	(0)
Sunday evening	(1)
Monday morning (early, 3AM)	(4)
Monday morning (late)	(0)

Time: 1:46 PM

Description: MATOC Road Conditions Table

TABLE 1: Transportation system status levels		Suggested terminology and PIO templates
Road Condition 5: IMPASSABLE/ DANGEROUS/ TREACHEROUS Some roads could be temporarily impassable. This may be the result of severe weather (low visibility, etc.) or road conditions (drifting, excessive unplowed snow, glare, ice, accidents, stranded vehicles, etc.) Skeletal transit services. Limited above-ground rail service if more than 8" of accumulation. Lane drops in certain sections.		"treacherous", "impassable", "dangerous" Be where you need to be by <time>. Get where you need to be before the weather gets bad. Stay where you are.
Road Condition 4: ICY/SNOW PACKED The pavement surface is covered with packed snow and/or ice. There may be loose snow on top of the icy or packed snow surface. Transit lifeline services only with significant delays for rail and bus. Refreeze possible. Lane drops in certain sections.		"unsafe", "impassable" "major delays" Be where you need to be by <time>. Avoid or postpone travel for next <hours>. Stay at the office an extra <hours>, or leave early, to avoid travel during a winter storm.
Road Condition 3: SNOW AND/OR SLUSH COVERED The pavement surface has continuous stretches of packed snow with or without loose snow on top of the packed snow or ice. Core bus services only, delays in rail services. Lane drops on certain sections of roadways.		"caution", "passable" Avoid being stranded at bus stops Avoid or postpone travel for next <hours>. Stay off the roads. Stay at the office an extra <hours>, or leave early, to avoid travel during a winter storm.
Road Condition 2: SNOW / SLUSH COVERED W/ WHEEL TRACKS EXPOSED Accumulations of loose snow or slush up to 2 inches are found on the pavement surface. Packed and bonded snow and ice are not present. Regular transit services with some minor exceptions and detours for buses. Drifting snow.		"passable" Avoid discretionary travel. Road crews engaged in clearing activities. Curtail "elective" travel. Avoid unnecessary travel.
Road Condition 1: CLEAR WET/DRY Clear and wet/dry pavement surface is the general condition. There are occasional areas having snow or ice accumulations resulting in drifting, sheltering, cold spots, frozen melt-water, etc. Transit operations per schedules.		"passable"
